An examiner's comment or amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Examiner's amendment: In order to place the application in condition for allowance, the figure 1 description has been amended to read

--- Figure 1 is a front perspective view of a flashlight showing my new design; --- which brings the figure 1 description into conformity with the claim. This change was approved by James Carmichael in a telephone interview March 11, 2005.

Examiner's comments: The record of this application contains two preliminary amendments, the first filed 8/27/1999 and the second filed 12/30/2003. Both amendments are approved. The second amendment, i.e., the one filed 12/30/2003, puts this application in condition for allowance, by --among other things- amending the specification to describe three views of drawing, and amending the drawing to contain three figures. The purpose of this comment is to ensure that this application is published as a patent with those three figure descriptions and those three figures of drawing.

Any inquiry concerning this communication should be directed to Alan P. Douglas at telephone number (571) 272-2588.
